

Consumables & Maintenance Log

Book 1 · Chapters 1A, 3 and 6 · stock it before it matters

Running out of windows mid-job teaches expensive patience. Set your own minimum for each line and tick when you hold it.

RESTOCK LIST

Item	Minimum to hold	In stock?	Ordered (date)	Notes
Sacrificial windows (several)		☐		
Lens wipes approved by the OEM		☐		
FFP3 masks or P3 filter pairs		☐		
Nitrile gloves for window changes		☐		
Ducting / hood clamps for the extractor		☐		
Extractor pre-filters		☐		
Water-trap bowls / filter elements for the air branch		☐		
Spare EN 207 glasses		☐		
Coolant of the type the manual names (if a chiller is fitted)		☐		
Fire extinguisher: service date visible		☐		
		☐		
		☐		
		☐		

DIAGNOSE BEFORE YOU MAX

When the clean goes weak: window first, air dryness second, remap focus on scrap third — only then touch the power. A dirty window makes people crank power.

Consumables & Maintenance Log

One line per job: window changes, air traps, filters, coolant, extinguisher

Date	Item	What was done	Condition found	Initials

Bag dirty filters and window wipes as contaminated waste. Do not shake HEPA cartridges out on the driveway.
