

Plume-Day & Waste Record

Book 2 · Chapters 4.10 and 6.3 · suspect old primer, lead or chromate

NOT A LICENCE

This is an awareness record for your own file. It is not a licence, not a lead-abatement certificate and not a claim that anything is "lead safe". It does not authorise regulated work. If the job is clearly regulated work beyond your setup, stop and seek proper guidance.

Date	Job ref	Object

Why suspected (pre-1970s stack, industrial primer, agricultural coating, unknown old stack)

CONTROLS USED

- | | |
|---|--|
| ☐ Extraction verified at the work face before the first pass | ☐ FFP3 / P3 sealed (PAPR if bearded) |
| ☐ Family, customers and dogs kept out | ☐ Wet-wipe prep where sensible; no dry sweeping |
| ☐ Debris, filters and wipes bagged separately | ☐ Bags labelled with the date and job ref |
| ☐ No food or drink in the bay | ☐ Hands and face washed before breaks |

WASTE RECORD

Date	What (debris, filters, wipes, masks)	Bags	Labelled?	Where it went / who took it	Initials
			☐		
			☐		
			☐		
			☐		
			☐		
			☐		

DECISION

- | | | |
|---|---|--|
| ☐ Carried on with the controls above | ☐ Stopped: regulated work beyond this setup; guidance sought | ☐ Refused the job |
|---|---|--|

Notes (local waste rules checked, who advised)
